Genetic Construction Work: Based in Intersecting Planes (Classic Reprint) (Paperback)

By Jessie Davis

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Genetic Construction Work: Based in Intersecting Planes All handwork is not educative any more than all books are instructive. Much time and attention have been wasted in many schools by the so-called occupation work. Even much of the handwork which results in the making of definite objects lacks true educative value. The importance of this new handwork of Miss Jessie Davis is that it is based on the eternal and universal forms of geometry and includes the fundamental principles of all construction. It therefore connects not only with the industrial and art life of mankind (leading directly into the same), but it is genetic, one kind of a work growing out of the mastery of the preceding kind, as, for example, the intersection of planes leads the child to a familiarity with diametral lines. These are the chief elements used in the second series and thus is emphasized the central point at which the diametral lines meet. The central point becomes a pivot around which the third series swings, and so on, throughout the entire...
