## VA HEALTH CARE: VETERANS DEMAND FOR OUTPATIENT CARE: HRD-89-70

Bibliogov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 22 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. In response to a congressional request, GAO assessed the demand of category A veterans for outpatient medical care at Department of Veterans Affairs (VA) clinics, focusing on how: (1) many veterans could have been classified as category A in 1986; (2) many of the total visits to VA clinics category A veterans made in 1986; and (3) the estimated usage rate of category A veterans with service-connected disabilities compared to the rate for category A veterans without such disabilities. GAO found that: (1) category A veterans included those who had service-connected disabilities, special status, such as former prisoners of war, or incomes below a specified level; (2) 9.2 million veterans could have been classified as category A in 1986, including 3.7 million with service-connected disabilities and 5.1 with below-threshold-level incomes; (3) category A veterans made an estimated 16.6 million visits to VA clinics in 1986 and accounted for 97 percent of care provided in 1987; (4) category A veterans without service-connected disabilities made fewer visits than those with service-connected disabilities; and (5) usage factors included veterans awareness of VA as a source of health care, VA giving service-connected-disability veterans higher priority, and service-connected veterans eligibility to receive some care that other category A veterans could not. This item ships from La Vergne, TN. Paperback.
