This item is printed on demand - Print on Demand Titel. - Seminar paper from the year 2002 in the subject Business economics - Didactics, Economic Pedagogy, printed single-sided, grade: 2.2 (B), University of Manchester (Manchester School of Management), 22 entries in the bibliography, language: English, abstract: At the beginning of any type of research, it is important for the researcher to determine the most appropriate methodology to carry out the study. This further highlights the importance the researcher needs to place at the selection of the right approach if the end-result is expected to be valuable and meaningful from a management perspective. When the most appropriate research method - or a mix of various methods - has been established, it is time to start what Gilbert (2001) calls detective work: Social research involves detective work. You begin with a problem and then ask a number of questions about it, such as what , who ,...
