The sense of immediacy is irresistible and will cause children who consider the event just ancient history to feel as if they too had left footprints on that distant, dusty surface. School Library Journal Only July 29, 1969, as Americans sat glued to their televisions and radios, Neil Armstrong and Buzz Aldrin did the seemingly impossible--something humans had dreamed of doing for centuries: They traveled 240,000 miles through space and set foot on the moon. One small step for man; one giant leap for mankind. This achievement not only brought the moon within reach, but now everything seemed possible. If it could be imagined, it could be done. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
